

Shandong Rhinoceros Engineering Machinery CO., LTD

GARBAGE TRUCK

- New style body :D1695B new style body, beautiful and elegant, luxurious interiors, comfortable driving and riding
- Special chassis: engineering vehicle chassis, strong bearing, strong lifting capability and stable performance
- Environmental friendly: U type sealing, high sealing performance avoid the secondary pollution
- Convenient: Garbage collection is convenient, using strong power manipulator automatic turning trash, biggest turning quality 120kg, can hang a 240L party for garbage barrel, convenient for loading
- The whole carriage all adopted rust electroplate process, the corrosion degree is greatly improved.
- Emission standard is National IV.

Shandong Rhinoceros Engineering Machinery CO., LTD

Detail date:

Vehicle Bulletin	BJ5045222-3	Chassis configuration	BJ3045D9PB5-2
Overall dimension	5550*2030*2420 mm	Driver	4*2
Container Volume	7 cbm	Tires	6.50-16
Container dimension	3280*1860*1535 mm	Side door dimension	460*650 mm
Back door dimension	420*510 mm	Wheelbase	3000 mm
Way of garbage unloading	Backside unloading	Loading way	Back door
Other configurations	Spare tires, heater,MP3, pre-device, optional A/C	Steering gear	Recirculating ball type steering
Chassis configuration			
Engine	QUANCHAI 4A-68c40	Total weight/Curb weight	4830/2970 kg
Power(PS)	50/68	Number of spring plate	1043/5.833
Displacement(L)	1.809/3200	Others	Power steering, Single spare tire, Coil spring
Vehicle	D1695B		
Gearbox	5T20		
Chassis(mm)	170*60*6+5/740		
Upper part configuration			
Oil cylinder model	3TG1-E100	Double oil cylinder	
Rated pressure of hydraulic system (Mpa)	16	Manipulator Max.flip mass	120 kg
Max. Dumping angle	45°	Way of garbage collection	Hang drum/bulk type
Volume of hydraulic oil tank(L)	20	Volume of mechanical hand-held bucket (L)	120-140
